

Name
Address

Clues are of two types. In the acrosses, the definition part leads to the answer to be entered and the (cryptic) remainder leads to an anagram or reversal of the answer, usually of one word. In the downs, the cryptic part leads to the answer to be entered and the definition part leads to an anagram or reversal of that answer, also usually of one word.

## ACROSS

1 Falconer's frame caught a pike (5)
5 Consults together about independence due to lord's superior (8)
11 Shift completely round, describing spots of colour (7)
