From the answer to each clue the solver must omit one letter wherever it occurs (often more than once) before entry in the diagram. Definitions in the clues refer to the full, unmutilated answers; subsidiary indications, such as anagrams etc, refer to the mutilated forms to be entered in the diagram. Numbers in brackets show the full length of unmutilated answers. The letters omitted, read in clue order, spell out a seasonal quotation given in the second (1953) edition of the Oxford Dictionary of Quotations but dropped from subsequent editions. Competitors should submit with their solutions a "Letters Latent" clue to the penultimate word in the quotation, treating its third letter as latent.
